

September 2008

Dear Parent

Redevelopment Work at the Middle School Site

Preparatory work for the redevelopment of the school has begun on site. We are working very closely with the Project Management Team, Davis Langdon and the construction contractors Carillion to ensure that the health, welfare and safety of pupils and indeed everyone using the site are fully safeguarded. Inevitably given the scale of the project, one of our top priorities continues to be the safe management of traffic entering and leaving the school.

I write, therefore to ask for your co-operation over the coming months. If you bring your child to school by car, please do not park or wait in the school car parks at the beginning and end of the day and please do not use the entrance ways to the school to turn your car around. Our limited parking space will be required for teachers and any congestion or obstruction could prevent staff travelling safely between sites and cause them to arrive late for lessons or for meetings with parents. Similarly please take great care if parking on the main road outside the school. Please do not park close to entrances/exits in such a way that views of oncoming traffic are impeded for drivers leaving the site.

Thank you for your help.

Yours sincerely

Mrs M. Evans
Headteacher
